How to Bring Out the Best in Everyone

SIGN UP BY MARCH 26TH AND ATTEND FOR FREE

The Workshop Will Be Facilitated by Bill Durkin

"Bill has the unique ability to lead any group in an open, non-threatening manner. He has worked with first-line managers, as well as senior management. In quick fashion, he manages to engage the group in positive, thoughtful dialogue. Participants left his sessions ready to tackle challenges – both professional and personal. During times requiring rapid reaction, Bill's approach is a refreshing respite for healthcare leadership! I strongly recommend his "Positive Action" coaching to leaders attempting to care for their teams." **Darcie Brazel, Chief Nursing Officer, Christ Hospital**

"Bill Durkin had a positive influence on our company. We enjoyed his stories and benefited from his fresh ideas. His professionalism and engaging style made the program enjoyable and beneficial for everyone involved. **Jennifer Johnson, Senior Manager National Education and Development Deloitte & Touche LLP**

"The workshop and follow-up sessions conducted by Bill Durkin for PwC has added new dimensions to my leadership and enhanced my contributions to my work. I've been able to extend myself to the teams that I lead, to elicit their participation, and to bring out the best in each of them.

Business is often a complex matter, and the heart of any business is people. I would highly recommend Bill Durkin, because he has such a positive impact on people's ability to relate, communicate, and perform. He has developed a real ability to bring people together, which is instrumental for increasing productivity and effectiveness in all business."

Pam Nigro, US UT, PricewaterhouseCoopers

"He received exceptional evaluations. Participants noted that Bill's style is a refreshing blend of facts and fun. He also demonstrates the ability to challenge each individual to do their part in strengthening our college to be a positive place where an exceptional educational experience is received by all.

We were so pleased with his initial experience that we have invited Bill back on several occasions. Most recently, Bill demonstrated the flexibility of his skills by providing an extended workshop for individuals with supervisory responsibilities. This experience was extremely valuable because of the individual coaching Bill provided."

Cheryl Kisunzu, VP for Diversity & Organizational Development Harper College
